#### **Independent Auditors' Report Translated from Chinese**

To UNIVERSAL TEXTILE Co., Ltd.

#### **Opinion**

We have audited the accompanying consolidated balance sheets of UNIVERSAL TEXTILE Co., Ltd. and its subsidiaries (the "Group") as of 31 December 2022, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the year ended 31 December 2022, and notes to the consolidated financial statements, including the summary of significant accounting policies (together "the consolidated financial statements").

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Group as of 31 December 2022, and its consolidated financial performance and cash flows for the year ended 31 December 2022, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards, International Accounting Standards, interpretations developed by the International Financial Reporting Interpretations Committee or the former Standing Interpretations Committee as endorsed by Financial Supervisory Commission of the Republic of China.

#### **Basis for Opinion**

We conducted our audit of consolidated financial statements in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants, and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the "Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. Based on our audits, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of 2022 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Revenue Rcognition

The company mainly sales textured yarns and synthetic fabrics, the industry are greatly affected by market supply and demand. The operating revenues amounted to NT\$1,511,208 thousand for the year ended 31 December 2022 compared with NT\$1,254,148 thousand for the year ended 31 December 2021 increased about 20.50%, among which the sales revenue from specific customers increased significantly, The operating revenue was NT \$413,846 thousand for the year ended 31 December 2022, accounting for about 27.39% of the overall operating revenue, therefore, the accountant in this year's review, the authenticity of operating revenue recognition is listed as a key audit matter.

The audit procedures of the accountants included (but not limited to), understanding and evaluating the accounting policies for revenue recognition; understanding and testing the effectiveness of relevant internal control design and implementation; selecting samples for operating revenue details, and performing transaction detail tests, Review the major clauses in the contract and test the five steps of revenue recognition and check the relevant transaction certificates to evaluate and judge the correctness of the performance obligation and the timing of its satisfaction and verify the authenticity of the transaction; for before and after the balance sheet date for transactions over a period of time, analyze whether the changes are reasonable, and select samples to perform the cut-off point test; analyze the sales situation by customer, products, and region to understand the rationality of changes in operating revenue. Please refer to the consolidated financial statement Notes 4 and 6 indicate the appropriateness of the disclosure of operating income.

#### Other Matter- Making Reference to the Audits of Component Auditors

The consolidated financial report for the year ended 31 December 2021 was audited by other accountants, and issued an unqualified audit report for reference on 16 March 2022.

## Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Financial Reporting Standards, International Accounting Standards, Interpretations developed by the International Financial Reporting Interpretations Committee or the former Standing Interpretations Committee as endorsed by Financial Supervisory Commission of the Republic of China and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the ability to continue as a going concern of the Group, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee or supervisors, are responsible for overseeing the financial reporting process of the Group.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Group.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Group. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group—to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the accompanying notes, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2022 consolidated financial statements and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Other

We have audited and expressed an unqualified opinion on the parent company only financial statements of the Company as of and for the year ended 31 December 2022.

## UNIVERSAL TEXTILE CO., LTD. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the Years Ended 31 December 2022 and 2021

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

#### 1. History and organization

Universal Textile Co., Ltd. (the Company) was incorporated in Republic of China (R.O.C) in 12 September 1969. The main activities of the Company include the production and sales of various processed yarns and synthetic fiber fabrics. The shares of the Company were listed on the Taiwan Stock Exchange in 5 February 1991.

#### 2. Date and procedures of authorization of financial statements for issue

The consolidated financial statements of the Company and its subsidiaries (hereinafter referred to as "the Group") for the years ended 31 December 2022 and 2021 were authorized for issue in accordance with a resolution of the Board of Directors' meeting on 14 March 2023.

#### 3. Newly issued or revised standards and interpretations

(1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission ("FSC") and become effective for annual periods beginning on or after 1 January 2022. The adoption of these new standards and amendments had no material impact on the Group.

(2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board ("IASB") which are endorsed by FSC, but not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date
		issued by IASB
a	Disclosure Initiative - Accounting Policies - Amendments to IAS 1	1 January 2023
b	Definition of Accounting Estimates – Amendments to IAS 8	1 January 2023
С	Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12	

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(a) Disclosure Initiative - Accounting Policies – Amendments to IAS 1

The amendments improve accounting policy disclosures that to provide more useful information to investors and other primary users of the financial statements.

(b) Definition of Accounting Estimates – Amendments to IAS 8

The amendments introduce the definition of accounting estimates and include other amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to help companies distinguish changes in accounting estimates from changes in accounting policies.

(c) Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12

The amendments narrow the scope of the recognition exemption in paragraphs 15 and 24 of IAS 12 so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after 1 January 2023. The standards and interpretations have no material impact on the Group.

(3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date
		issued by IASB
a	IFRS 10 "Consolidated Financial Statements" and IAS 28	To be determined
	"Investments in Associates and Joint Ventures" — Sale	by IASB
	or Contribution of Assets between an Investor and its	
	Associate or Joint Ventures	
b	IFRS 17 "Insurance Contracts"	1 January 2023
c	Classification of Liabilities as Current or Non-current –	1 January 2024
	Amendments to IAS 1	
d	Lease Liability in a Sale and Leaseback – Amendments to	1 January 2024
	IFRS 16	
e	Non-current Liabilities with Covenants – Amendments to	1 January 2024
	IAS 1	

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group's financial statements were authorized for issue, the local effective dates are to be determined by FSC. All the new or amended standards and interpretations have no material impact on the Group.

#### 4. Summary of significant accounting policies

#### (1) Statement of Compliance

The consolidated financial statements of the Group for the years ended 31 December 2022 and 2021 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations") and International Financial Reporting Standards, International Accounting Standards, and Interpretations developed by the International Financial Reporting Interpretations Committee, which are endorsed and became effective by the FSC.

#### (2) Basis of Preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars (NT\$) unless otherwise stated.

#### (3) Basis of Consolidation

#### Preparation principle of consolidated financial statement

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- (a) power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- (b) exposure, or rights, to variable returns from its involvement with the investee, and
- (c) the ability to use its power over the investee to affect its returns

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee
- (b) rights arising from other contractual arrangements
- (c) the Group's voting rights and potential voting rights

The Group re-assesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Total comprehensive income of the subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Group loses control of a subsidiary, it:

- (a) derecognizes the assets (including goodwill) and liabilities of the subsidiary
- (b) derecognizes the carrying amount of any non-controlling interest
- (c) recognizes the fair value of the consideration received
- (d) recognizes the fair value of any investment retained
- (e) recognizes any surplus or deficit in profit or loss
- (f) reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The consolidated entities are listed as follows:

			Percentage of ownership (%)		
Investor	Subsidiary	Main businesses	31 December	31 December	
			2022	2021	
The Company	CHANG FU INVESTMENT CO., LTD.	Investment	100.00%	100.00%	
TTI C		Wholesale of	100.000/	NT A	
The Company	HUNG YU TECHNOLOGY CO., LTD.	Chemical Feedstock	100.00%	NA	

#### (4) Foreign currency transactions

The Group's consolidated financial statements are presented in New Taiwan Dollars (NT\$), which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency rates prevailing at the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Non-monetary items measured at fair value in foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in foreign currency are translated using the exchange rates as at the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- (a) Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- (b) Foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instruments.
- (c) Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

#### (5) Current and non-current distinction

An asset is classified as current when:

- (a) The Group expects to realize the asset, or intends to sell or consume it, in its normal operating cycle
- (b) The Group holds the asset primarily for the purpose of trading
- (c) The Group expects to realize the asset within twelve months after the reporting period
- (d) The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- (a) The Group expects to settle the liability in its normal operating cycle
- (b) The Group holds the liability primarily for the purpose of trading
- (c) The liability is due to be settled within twelve months after the reporting period
- (d) The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

#### (6) Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term, highly liquid time deposits (including ones that have maturity within 3 months) or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

#### (7) Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 Financial Instruments are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

#### A. Financial instruments: Recognition and Measurement

The Group accounts for regular way purchase or sales of financial assets on the trade date.

The Group classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- (a) the Group's business model for managing the financial assets
- (b) the contractual cash flow characteristics of the financial asset

#### Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

- (a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (a) purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition
- (b) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods

#### Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- (a) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- (b) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- (c) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
  - (i) Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
  - (ii) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Group made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represent a recovery of part of the cost of investment.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

#### Financial asset measured at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

#### B. Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on financial asset measured at amortized cost.

The Group measures expected credit losses of a financial instrument in a way that reflects:

- (a) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- (b) the time value of money; and
- (c) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measured as follows:

(a) At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Group measures the loss allowance at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (b) At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- (c) For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.
- (d) For lease receivables arising from transactions within the scope of IFRS 16, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Group needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

#### C. Derecognition of financial assets

A financial asset is derecognized when:

- (a) The rights to receive cash flows from the asset have expired.
- (b) The Group has transferred the asset and substantially all the risks and rewards of the asset have been transferred.
- (c) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

#### D. Financial liabilities and equity

#### Classification between liabilities or equity

The Group classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

#### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

#### Financial liabilities

Financial liabilities within the scope of IFRS 9 Financial Instruments are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

#### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated as at fair value through profit or loss. A financial liability is classified as held for trading if:

- (a) it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term
- (b) on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking
- (c) it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument)

If a contract contains one or more embedded derivatives, the entire hybrid (combined) contract may be designated as a financial liability at fair value through profit or loss; or a financial liability may be designated as at fair value through profit or loss when doing so results in more relevant information, because either:

(a) it eliminates or significantly reduces a measurement or recognition inconsistency; or

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(b) a group of financial liabilities or financial assets and financial liabilities is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the key management personnel.

Gains or losses on the subsequent measurement of liabilities at fair value through profit or loss including interest paid are recognized in profit or loss.

#### Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

#### Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

#### E. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

#### (8) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

A. In the principal market for the asset or liability, or

B. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

#### (9) Inventories

The inventory value includes costs incurred in bringing the inventory to its present location and condition. Inventory accounted for purchase cost on a weighted average cost basis with the perpetual inventory system. Ending inventories are valued at lower of cost and net realizable value item by item.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

#### (10) Construction accounting

The Group invests in the construction of houses and calculates the costs separately for each project. The purchase price of the land paid before acquiring ownership is recognized as "Prepaid for land purchase", and the costs invested in construction land and building of each project are recorded as "Construction in progress". After completion of the project, it will be transferred to "Properties and land held for sale". The Group adopts the completed contract method in its construction accounting. In the year of completion and delivery, the "Properties and land held for sale" is transferred to the profit or loss of current period according to the portion sold.

The determination of the year for all revenue and expense recognition of the completion of a contract is based on the date when the construction is completed and the property is ready for delivery and has actually been delivered.

The allocation of costs between sold and unsold properties is based on the "current value of a house".

The "construction-in-progress" and "properties and land held for sale" are evaluated at lower of cost and net realizable value item by item

#### (11) Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognized such parts as individual assets with specific useful lives and depreciation, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 *Property, plant and equipment*. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Items	Useful Lives
Buildings	3∼60 years
Office equipment	$3\sim15$ years
Machinery and equipment	$5\sim10$ years
Other equipment	$5\sim35$ years

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate, and are treated as changes in accounting estimates.

#### (12) Leases

The Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use, has both of the following:

- A. the right to obtain substantially all of the economic benefits from use of the identified asset; and
- B. the right to direct the use of the identified asset.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

For a contract that is, or contains, a lease, the Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Group for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Group estimates the stand-alone price, maximizing the use of observable information.

#### Group as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Group recognizes right-of-use asset and lease liability for all leases which the Group is the lessee of those lease contracts.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- C. amounts expected to be payable by the lessee under residual value guarantees;
- D. the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- E. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

After the commencement date, the Group measures the lease liability on an amortized cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Group measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- A. the amount of the initial measurement of the lease liability;
- B. any lease payments made at or before the commencement date, less any lease incentives received;
- C. any initial direct costs incurred by the lessee; and
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Group measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Group measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Group applies IAS 36 "Impairment of Assets" to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Group accounted for as short-term leases or leases of low-value assets, the Group presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

For short-term leases or leases of low-value assets, the Group elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

For the rent concession arising as a direct consequence of the Covid-19 pandemic, the Group elected not to assess whether it is a lease modification but accounted it as a variable lease payment. The Group have applied the practical expedient to all rent concessions that meet the conditions for it.

#### (13) Revenue recognition

The Group's revenue arising from contracts with customers are primarily related to sale of goods. The accounting policies are explained as follows:

#### Sale of goods

The Group manufactures and sells goods. Revenues are recognized when the commitment goods are delivered to the customers and control of which is transferred to the customers. (Control of an asset is defined as the customers have ability to direct the use of and obtain substantially all of the remaining benefits from the goods.). The main products of the Group are various processed yarns and synthetic fiber fabrics and revenues are recognized based on the consideration stated in the contract.

The credit period of the Group's sale of goods is from 30 to 120 day. For most of the contracts, when the Group transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as trade receivables. The Group usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract. For some of the contracts, the Group has transferred the goods to customers but does not has a right to an amount of consideration that is unconditional, these contacts should be presented as contract assets. Besides, in accordance with IFRS 9, the Group measures the loss allowance for a contract asset at an amount equal to the lifetime expected credit losses.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

#### (14) Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate.

#### (15) Post-employment benefits

All regular employees of the Company and its domestic subsidiaries are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company and its domestic subsidiaries. Therefore, fund assets are not included in the Group's consolidated financial statements.

For the defined contribution plan, the Company and its domestic subsidiaries will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due.

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Re-measurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, excluding net interest, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur. Past service costs are recognized in profit or loss on the earlier of:

A. the date of the plan amendment or curtailment, and

B. the date that the Group recognizes restructuring-related costs

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

#### (16) Income taxes

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

#### Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

#### Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

A. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B.In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- B. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

#### 5. Significant accounting judgments, estimates and assumptions

The preparation of the Group's consolidated financial statements require management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

#### (1) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

#### A. Accounts receivables-estimation of impairment loss

The Group estimates the impairment loss of accounts receivables at an amount equal to lifetime expected credit losses. The credit loss is the present value of the difference between the contractual cash flows that are due under the contract (carrying amount) and the cash flows that expects to receive (evaluate forward looking information). However, as the impact from the discounting of short-term receivables is not material, the credit loss is measured by the undiscounted cash flows. Where the actual future cash flows are lower than expected, a material impairment loss may arise. Please refer to Note 6(13) for more details.

#### B. Inventories

Estimates of net realizable value of inventories take into consideration that inventories may be damaged, become wholly or partially obsolete, or their selling prices have declined. The estimates are based on the most reliable evidence available at the time the estimates are made. Please refer to Note 6(6) for more details.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Group made investments in TAIWAN TAFFETA FABRIC CO., LTD's common stocks and TAIWAN FILAMENT WEAVING DEVELOPMENT CO., LTD.'s common stocks and preferred stocks. According to its medium-to-long-term strategic objectives, and expected to gain profits through long-term investments, the management of the Group believed that it would be inconsistent with the aforementioned long-term investment plan if they determined the investment as the short-term fair value fluctuations. Therefore, the Group determined to designate these investments as financial assets at fair value through other comprehensive income.

Financial assets at fair value through other comprehensive income were not pledged.

Note: In February of 2012, the Group signed a joint development agreement in land with Taiwan TAFFETA Fabric Co., Ltd. (Taiwan TAFFETA) for the construction and sale of the "DF CHATEAU" project. The two parties agreed that Taiwan TAFFETA would be responsible for the planning of the development project, and that the development costs would be shared equally by both parties according to the contract. The sales revenue of the properties would be recognized with 1% of the actual sales amount allocated as a reward to Taiwan TAFFETA, and the remainder recognized as revenue according to the contract. The cost of goods sold resulted from the sale of the "DF CHATEAU" project are shown as follows:

	As of 31 December		
	2022	2021	
Cost of goods sold	\$-	\$18,892	

The "DF CHATEAU" project had been sold out during the first half of 2021.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The cost of goods sold for the years ended 31 December 2022 and 2021 are as follows, including the price reduction (gain from price recovery) of inventories:

	As of 31 December		
	2022	2021	
Cost of goods sold	\$1,392,090	\$1,170,066	
The price reduction (gain from		_	
price recovery) of inventories	\$63,469	\$(11,149)	

The Group recognized gain from price recovery of inventories as of 31 December 2021 as the slow-moving inventory had been gradually consumed and the obsolete inventory of the Group had decreased, resulting in the reversal gains of the write-down of inventories.

No inventories were pledged.

The Group's unused short-term lines of credits amounted to NT\$320,000 thousand and NT\$400,000 thousand as of 31 December 2022 and 2021, respectively.

#### (10) Post-employment benefits

# Defined contribution plan

The Group adopt a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Labor Pension Act, the Group will make monthly contributions of no less than 6% of the employees' monthly wages to the employees' individual pension accounts. The Group have made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

Pension expenses under the defined contribution plan for the years ended 31 December 2022 and 2021 were NT\$6,830 thousand and NT\$7,036 thousand, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

# Defined benefits plan

The Company adopts a defined benefit plan in accordance with the Labor Standards Act of the R.O.C. The pension benefits are disbursed based on the units of service years and the average salaries in the last month of the service year. Two units per year are awarded for the first 15 years of services while one unit per year is awarded after the completion of the 15th year. The total units shall not exceed 45 units. Under the Labor Standards Act, the Company contributes an amount equivalent to 2% of the employees' total salaries and wages on a monthly basis to the pension fund deposited at the Bank of Taiwan in the name of the administered pension fund committee. Before the end of each year, the Company assesses the balance in the designated labor pension fund. If the amount is inadequate to pay pensions calculated for workers retiring in the same year, the Company will make up the difference in one appropriation before the end of March the following year.

The Ministry of Labor is in charge of establishing and implementing the fund utilization plan in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund. The pension fund is invested in-house or under discretionary accounts, based on a passive-aggressive investment strategy for long-term profitability. The Ministry of Labor establishes checks and risk management mechanism based on the assessment of risk factors including market risk, credit risk and liquidity risk, in order to maintain adequate manager flexibility to achieve targeted return without over-exposure of risk. With regard to utilization of the pension fund, the minimum earnings in the annual distributions on the final financial statement shall not be less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. Treasury Funds can be used to cover the deficits after the approval of the competent authority. As the Company does not participate in the operation and management of the pension fund, no disclosure on the fair value of the plan assets categorized in different classes could be made in accordance with paragraph 142 of IAS 19. The Comapny expects to contribute NT\$5,800 thousand to its defined benefit plan during the 12 months beginning after 31 December 2022.

The weighted average duration of the defined benefits obligation as of 31 December 2022 and 2021 were both 12 years.

Future salary decrease by 0.25%	-	(1,971)	-	(2,260)

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The sensitivity analyses above are based on a change in a significant assumption (for example: change in discount rate or future salary), keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation of one another.

There was no change in the methods and assumptions used in preparing the sensitivity analyses compared to the previous period.

## (11) Equities

#### A. Common stock

As of 1 January 2021, the Company's authorized capital was NT\$2,200,000 thousand, issued capital was NT\$ 1,306,660 thousand, and issued shares was 130,666 thousand shares, each at a par value of NT\$10. There have been no changes as of 31 December 2022. Each share has one voting right and a right to receive dividends.

#### B. Capital surplus

	As of 31 December		
	2022	2021	
Allowed to be used in covering the deficit,			
distribution of cash or dividend shares			
Additional paid-in capital	\$-	\$6,089	
Treasury share transactions		16,544	
Subotal		22,633	
Only allowed for covering the deficit			
Unpaid dividends due to overdue	1,294	1,065	
Total	\$1,294	\$23,698	

According to the Company Act, the additional paid-in capital shall not be used except for covering the deficit of the company. When a company incurs no loss, it may distribute the additional paid-in capital arising from the issuance of new shares at a premium and donations. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

## C. Retained earnings and dividend policies

The Company's policy of dividend distribution is in line with current and future development plans, considering the investment environment, capital requirements, and domestic and international competitive conditions, as well as the interests of shareholders. Earnings distribution is based on the principle of sustainable and stable operation of the company.

According to the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order: payment of all taxes and dues; offset operation losses in previous years (including adjustments to unappropriated earnings); set aside 10% of the remaining amount as legal reserve; set aside or reverse special reserve in accordance with law and regulations. After deducting the items above from the current year's earnings, the distribution of the remaining portion with the undistributed earnings at the beginning of period (including adjustments to unappropriated earnings), if any, will be proposed by the board of directors and resolved in the shareholders' meeting.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total paid-in capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

When the Company distributing distributable earnings, it shall set aside to special reserve, an amount equal to "other net deductions from shareholders" equity for the current fiscal year, provided that if the company has already set aside special reserve according to the requirements for the adoption of IFRS, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed from the special reserve.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Due to the inadequate amount of retained earnings increase arising from the first-time adoption of IFRS, only the retained earnings increase of NT\$201,716 thousand resulting from the conversion to IFRS was set aside as special reserve.

The FSC on 31 March 2021 issued Order No. Financial-Supervisory-Securities-Corporate-1090150022, which sets out the following provisions for compliance:

On a public company's first-time adoption of the IFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside special reserve. For any subsequent use, disposal or reclassification of related assets, the Company can reverse the special reserve by the proportion of the special reserve first appropriated and distribute it. As the Company's retained earnings was negative (accumulated deficit) as of 1 January 2012, the standard had no impact on the Company.

The appropriations of earnings for 2021 and 2020 were resolved by the shareholders' meeting held on 15 June 2022 and 18 August 2021 to cover accumulated deficit of 2021 and 2020 by capital surplus of NT\$22,633 thousand and NT\$60,771 thousand, respectively.

Details of the 2022 earnings distribution and dividends per share as approved by the Board of Directors' meeting on 14 March 2023, are as follows:

	Appropriation of earnings	Dividend per share (NT\$)
	2022	2022
Legal reserve	\$1,520	
Common stock -cash dividend	13,066	\$0.1

In addition, the cash distribution of NT\$26,133 thousand and dividends per share of NT\$0.2 from additional paid-in capital of trading of treasury stock was resolved by the shareholders' meeting held on 18 August 2021.

Please refer to Note 6(15) for details on employees' compensation and remuneration to directors and supervisors.

Depreciation	31,712	1,585	33,297	31,609	1,442	33,051
Amortization	519 - 519 364 -				364	

According to the Articles of Incorporation, should not be less than 2% and no higher than 3% of profit of the current year is distributable as employees' compensation and remuneration to directors and supervisors. However, the company's accumulated losses shall have been covered. The Company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

The Group's net loss before tax from 1 January 2022 to 31 December 2022, and another one from 1 January 2021 to 31 December 2021, there were still accumulated losses to be made up, so they were not estimated pay employees' compensation payable and remuneration to directors and supervisors payable.

## (2) Financial risk management objectives and policies

The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activates. The Group identifies measures and manages the aforementioned risks based on the Group's policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Group complies with its financial risk management policies at all times.

#### (3) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there are usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

## Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's functional currency).

The Group has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received. Hedge accounting is not applied as they did not qualify for hedge accounting criteria.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period. The Group's foreign currency risk is mainly related to the volatility in the exchange rates for USD and RMB. The sensitivity analysis information is as follows:

When the NT dollar appreciates/depreciates by 5% against the U.S. dollar, it will affect the Group for the years ended 31 December 2022 and 2021. The annual pre-tax profit and loss will decrease/increase by NT\$10,582 thousand and NT\$7,901 thousand respectively.

#### Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt instrument investments at variable interest rates, bank borrowings with fixed interest rates and variable interest rates.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as at the end of the reporting period, including investments and borrowings with variable interest rates and interest rate swaps. At the reporting date, a change of 10 basis points of interest rate in a reporting period could cause the profit. The profit and loss of the group for the years ended 31 December 2022 and 2021 will be reduced/increased NT\$80 thousand and NT\$0 thousand respectively.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

## (4) Credit risk management

Credit risk is the risk that a counterparty default obligations under a contract, leading to a financial loss to the group.

The credit risk of the Group is assessed on contracts whose fair value is a positive number on the balance sheet date. The Group only transacts with counterparties, which are financial institutions, companies with good credit rating. Consequently, there is no significant credit risk for these counter parties.

## (5) Liquidity risk management

Our group has constructed satisfied liquidity risk management construction. Our group manage liquidity risk by maintain enough loan limit, and monitor cash flows continuously. The unused bank loan limit on 31 December 2022 shows as below.

## Non-derivative financial liabilities

	Less than 1 year	1 to 3 years	3 to 5 years	> 5 years	Total

As of 31 December 2021	<u>\$-</u>	\$921	\$921

#### (7) Fair values of financial instruments

(a) The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Group to measure or disclose the fair values of financial assets and financial liabilities:

- a. The carrying amount of cash and cash equivalents, accounts receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- b. For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures etc.) at the reporting date.
- c. Fair value of debt instruments without market quotations, bank loans, bonds payable and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the Taipei Exchange, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(b) Fair value of financial instruments measured at amortized cost

The carrying amount of the Group's financial assets and liabilities measured at amortized cost approximate their fair value.

- (c) Please refer to Note 12(8)(2) for fair value measurement hierarchy for financial instruments of the Group.
- (8) Fair value measurement hierarchy
  - (a) Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

(b) Fair value measurement hierarchy of the Group's assets and liabilities

The Group does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Group's assets and liabilities measured at fair value on a recurring basis is as follows:

The Group has a number of different functional currencies; therefore, we are unable to disclose the exchange loss and gain of monetary financial assets and financial liabilities under each foreign currency that has significant impact. The Group recognized NT\$11,477 thousand foreign exchange profit and NT\$ 2,664 thousand foreign exchange loss for the years ended 31 December 2022 and 2021, respectively.

## (10) Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust dividend payments to shareholders, return capital to shareholders or issue new shares.

(11) On 9 January 2020, the Taipei District Prosecutors Office concluded the investigation of Runyin Group's alleged loan fraud. One of the Company's employee was alleged to be involved in the case, so was prosecuted. The verdict of the second instance trial was delivered on 23 September 2021, the employee was sentenced to three years and ten months in prison. The case is currently under appeal.

Additionally, Yuanta Commercial Bank Co., Ltd. (Yuanta Commercial

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

#### 14. Operating Segment information

- (1) For management purposes, the Group is organized into business units based on their products and services and has two reportable operating segments as follows:
  - (a) Textile segment: The main products of this department include polyester filament fabrics, T/R mixed weave fabrics, elastic fabrics, etc. The woven fabrics can be used as filament suit fabrics, women's thin fabrics and various finishing fabrics.
  - (b) Textured yarn segment: The main construction is Changbin Factory, produced polyester processed yarn, the specifications including 75D-600D, including CD100%, CD50%, Fur, linene and various composite yarns.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and measured in a manner consistent with operating profit and loss in the consolidated financial statements. However, income taxes are managed on a group basis and are not allocated to operating segments.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Transfer prices between operating segment are on an arm's length basis in a manner similar to transactions with third parties.
